The cost of preparing, assembling and mailing this Circular, the Notice of Meeting, the proxy form, the voting instruction form and any other material relating to the Meeting and the cost of soliciting proxies has been or will be borne by Khan. - If your Common Shares are held by a nominee, you may receive either a form of proxy or voting instruction form from such nominee and should carefully follow the instructions provided by the nominee in order to have your Common Shares voted at the Meeting.

## VOTING INFORMATION

### **Voting Matters**

At the Meeting, shareholders are voting on the election of directors, the appointment of auditors and authorization of the board of directors of Khan (the "Board of Directors" or "Board") to fix their remuneration.

### **Who Can Vote**

The record date for the Meeting is January 17, 2010. Holders of Common Shares as of the close of business on January 17, 2010 are entitled to vote at the Meeting. Each Common Share is entitled to one vote on those items of business identified in the Notice of Meeting.

If you have acquired Common Shares after the record date, you are entitled to vote those shares at the Meeting upon producing properly endorsed share certificates or otherwise establishing share ownership, and requesting the inclusion of your name in the list of shareholders not later than ten days before the date of the Meeting.

### **Voting your Common Shares**

#### *Registered Shareholders*

If you are a registered shareholder, you may attend and vote in person at the Meeting or give another person authority to represent you and vote your shares at the Meeting, as described below under "Voting by Proxy".

#### *Non-registered Shareholders*

Your Common Shares may not be registered in your name but in the name of a nominee, which is usually a trust company, securities broker or other financial institution. If your Common Shares are registered in the name of a nominee, you are a non-registered shareholder. Your nominee is required to seek your instructions as to how to vote your shares. You may vote your Common Shares through your nominee or in person.

To vote your Common Shares through your nominee, you should carefully follow the instructions of your nominee with respect to the procedures to be followed for voting. Generally, nominees will provide non-registered shareholders with either: (a) a voting instruction form for completion and execution by you, or (b) a proxy form, executed by the nominee and restricted to the number of shares owned by you, but otherwise uncompleted. These procedures are to permit non-registered shareholders to direct the voting of the Common Shares that they beneficially own.

If you are a non-registered shareholder, to vote your shares in person at the Meeting, you should take the following steps:

- (1) appoint yourself as the proxy holder by writing your own name in the space provided on the voting instruction form or form of proxy, and
- (2) follow the nominee's instructions for return of the executed form or other method of response.

Do not otherwise complete the form as your vote, or your designate's vote, will be taken at the Meeting.

### **Voting by Proxy**

If you will not be at the Meeting or do not wish to vote in person, you may still vote by using the enclosed proxy form. A proxy must be in writing and must be executed by you or by your attorney authorized in writing.

#### *Your Proxy Vote*

On the proxy form, you can indicate how you want to vote your Common Shares, or you can let your proxy holder decide for you.

All Common Shares represented by properly completed proxies received at the Toronto office of Equity Financial Trust Company ("Equity Financial") by 10:00 a.m. (Toronto time) on February 14, 2011 or the

last business day before any adjourned or postponed Meeting will be voted or withheld from voting, in accordance with your instructions as specified in the proxy, on any ballot votes that take place at the Meeting.

If you give directions on how to vote your shares, your proxy holder must vote your shares according to your instructions. If you have not specified how to vote on a particular matter, then your proxy holder can vote your shares as he or she sees fit. **If neither you nor your proxy holder gives specific instructions, your Common Shares will be voted as follows:**

- **FOR** the election of the eight nominees as directors for the ensuing year; and
- **FOR** the appointment of Ernst & Young LLP as auditors for the ensuing year and the authorization of the directors to fix their remuneration.

#### ***Appointing a Proxy holder***

A proxy holder is the person you appoint to act on your behalf at the Meeting and to vote your shares. **You may choose anyone to be your proxy holder, including someone who is not a shareholder of Khan.** Simply fill in the name in the blank space provided on the enclosed proxy form. If you leave the space in the proxy form blank, the persons designated in the form, who are officers of Khan, are appointed to act as your proxy holder.

Your proxy authorizes the proxy holder to vote and act for you at the Meeting, including any continuation after an adjournment or postponement of the Meeting.

#### ***Revoking Your Proxy***

If you give a proxy, you may revoke it at any time before it is used by doing any one of the following:

- You may send another proxy form with a later date to the Toronto office of Equity Financial, but it must reach Equity Financial by 10:00 a.m. (Toronto time) on February 14, 2011 or the last business day before any adjourned or postponed Meeting.
- You may deliver a signed instrument in writing, stating that you want to revoke your proxy, to the Corporate Secretary of the Corporation no later than 10:00 a.m. (Toronto time) on February 16, 2011, or the last business day before any adjourned or postponed Meeting, at the Corporation's registered office located at 141 Adelaide Street West, Suite 1007, Toronto, Ontario, M5X 3L5 or by facsimile at (416) 360-3417.
- You may attend the Meeting and notify the Chairman of the Meeting prior to the commencement of the Meeting that you have revoked your proxy.
- You may revoke your proxy in any other manner permitted by law.

#### **ADDITIONAL MATTERS PRESENTED AT THE ANNUAL MEETING**

The enclosed proxy form or voting instruction form confers discretionary authority upon the persons named as proxies therein with respect to any amendments or variations to the matters identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting.

If you sign and return the proxy form for Common Shares and any matter is presented at the Meeting in addition to the matters described in the Notice of Meeting, the Khan officers named as proxies will vote in their best judgment. When this Circular went to press, management of Khan was not aware of any matters to be considered at the Meeting other than the matters described in the Notice of Meeting or any amendments or variations to the matters described in such notice.

#### **VOTING SHARES**

The Common Shares are the only shares entitled to vote at the Meeting. As at January 12, 2011, 54,010,445 Common Shares were issued and outstanding. The holders of Common Shares are entitled to one vote per share.

**PRINCIPAL HOLDERS OF VOTING SHARES**

The consolidated financial statements for the financial year ended September 30, 2010 and the report of the auditors thereon which accompany this Circular will be submitted to the Meeting of shareholders. Receipt at such Meeting of the auditors' report and the Corporation's financial statements for this financial period will not constitute approval or disapproval of any matters referred to therein.

**ELECTION OF DIRECTORS**

It is proposed that the eight people listed below be nominated for election as directors of Khan to hold office until the next annual meeting or until their successors are elected or appointed. All of the proposed nominees are currently directors of Khan and have been since the dates indicated. The articles of amendment of the Corporation provide for a minimum of one and a maximum of nine directors.

**The Board of Directors recommends that shareholders vote for the election of the proposed nominees set out below. Unless otherwise instructed, proxies and voting instructions given pursuant to this solicitation by the management of Khan will be voted for the election of the proposed nominees.** If any proposed nominee is unable to serve as a director, the individuals named in the enclosed form of proxy reserve the right to nominate and vote for another nominee in their discretion.

**Nominees for Election as Directors**

The following table sets forth for each nominee for election as director: place of residence; present principal occupation and principal occupations held in the last five years, if different; a brief description of the nominee's principal directorships, memberships and education; the number of Common Shares beneficially owned, directly or indirectly, or over which control or direction, directly or indirectly, is exercised; the number of outstanding options to acquire Common Shares held by the nominee under Khan's stock option plan; the date the nominee became a director of Khan; current membership on committees of the Board; record of attendance at meetings of the Board and its committees during the 12 months ended September 30, 2010; and whether or not the Board has determined each nominee to be independent. ### STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Effective corporate governance is a priority for the Board of Directors. In developing Khan's corporate governance practices, the Board of Directors has taken into account the rules and guidelines adopted by the Canadian Securities Administrators ("CSA") in June 2005 (National Instrument 58-101 - *Disclosure of Corporate Governance Practices* ("NI 58-101") and National Policy 58-201 - *Corporate Governance Guidelines* (the "CSA Governance Requirements"), which require Khan to disclose certain information relating to its corporate governance practices.

The CSA Governance Requirements set out 9 best practices drawn from existing Canadian standards and U.S. regulatory standards. Khan is required to describe certain aspects of its corporate governance practices in its management information circular, including a discussion of any practices that are inconsistent with the CSA Governance Requirements. This information is set out in Appendix A to this Circular.

The CSA has also enacted rules regarding the composition of audit committees (Multilateral Instrument 52-110 - *Audit Committees*) and the certification of an issuer's disclosure controls and procedures (Multilateral Instrument 52-109 - *Certification of Disclosure in Issuers' Annual and Interim Filings*). Khan is currently in compliance with these rules. For the year ended September 30, 2010, the Chief Executive Officer and

Chief Financial Officer were required to file a certificate to certify that Khan established appropriate disclosure controls and procedures, that management has evaluated the effectiveness of these controls and procedures and that management has appropriately designed internal controls over financial reporting, and has disclosed in Khan's Management Discussion & Analysis ("MD&A") its conclusions about the effectiveness of the disclosure controls and procedures as well as any material changes relative to the system of internal controls over financial reporting.

In this Circular and in the attached Appendix A, the term "independent" director has the corresponding meaning given to the term "independent" director in NI 58-101; namely, a director who has no direct or indirect material relationship with the Corporation which could, in the view of the Board of Directors, be reasonably expected to interfere with the exercise of the Director's independent judgement. A majority of the nominees standing for election as directors are "independent" within the meaning of NI 58-101.

### **COMMITTEES OF THE BOARD OF DIRECTORS**

The Board of Directors has established four committees: an Audit and Finance Committee, a Compensation Committee, a Corporate Governance and Nominating Committee, and a Strategic Review Committee. A brief description of each committee is set out below.

***Audit and Finance Committee.*** The Audit and Finance Committee assists the Board of Directors in fulfilling its responsibilities for oversight of financial and accounting matters. The Committee recommends the auditors to be nominated and reviews the compensation of the auditors. The Committee is directly responsible for overseeing the work of the auditors, must pre-approve non-audit services, be satisfied that adequate procedures are in place for the review of our public disclosure of financial information extracted or derived from Khan's financial statements and must establish procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters. The current members of the Committee are James B. C. Doak (Chair), Jean-Pierre Chauvin, Marc C. Henderson and David L. McAusland. Reference should be made to "Audit Committee and Auditors" in the Corporation's Annual Information Form for the year ended September 30, 2010 dated December 16, 2010 for additional information concerning the Audit and Finance Committee.

***Compensation Committee.*** The Compensation Committee assists the Board of Directors in fulfilling its responsibilities for compensation philosophy and guidelines, and fixing compensation levels for Khan's executive officers. ## **STATEMENT OF EXECUTIVE COMPENSATION**

Unless otherwise stated, "dollars" or "\$" means Canadian dollars.

### **Compensation Discussion and Analysis**

This section of the Circular explains how the Corporation's executive compensation program is designed and operated with respect to the President and CEO (referred to as the "CEO" in the narrative discussion in this section and under the section entitled "Executive Compensation Tables"), Chief Financial Officer and Corporate Secretary ("CFO"), and the three other most highly compensated executives included in this reported financial year whose total compensation was, individually, more than \$150,000 (together with the CEO and CFO collectively referred to as the "NEOs", and each an "NEO"). This section also identifies the objectives and material elements of compensation awarded to the NEOs and the reasons for the compensation. For a complete understanding of the executive compensation program, this Compensation Discussion and Analysis should be read in conjunction with the Summary Compensation Table and other executive compensation-related disclosure included in this Circular.

The philosophy of the Compensation Committee of the Board of Directors (the "Compensation Committee") is to determine compensation for the Corporation's executive officers relative to the performance of the Corporation in executing on its objectives.

The Compensation Committee's assessment of corporate performance is based on a number of qualitative and quantitative factors including execution of on-going projects and transactions, safety, operational performance and progress on key growth initiatives. For the most recently completed financial year-ended September 30, 2010, the Compensation Committee determined the overall corporate performance rating to be "at target". NEOs do not automatically receive any particular award based on the Compensation Committee's determination of the overall performance of the Corporation, but rather the determination establishes the background for the Compensation Committee's subsequent review of the NEOs' individual performance. The Compensation Committee's decisions with respect to Total Direct Compensation for NEOs for 2010 are noted below in the section "Compensation Decisions for 2010".

### **Named Executive Officers**

The CEO at the end of the most recently completed financial year-end was Grant A. Edey who was appointed to the role of President and Chief Executive Officer following the retirement of Martin Quick on June 25, 2010.

The CFO at the end of the most recently completed financial year-end was Paul D. Caldwell.

The Corporation had one other NEO at the end of the most recently completed financial year-end, Enkhbayar Ochirbal, Vice President, Governmental Affairs.

### **Objectives of the Compensation Program**

The objectives of the Corporation's executive compensation program are:

- to reward individual contributions in light of overall business results;
- to be competitive with the companies with whom the Corporation competes for talent;
- to align the interests of the executives with the interests of the shareholders; and
- to attract and retain executives who can help the Corporation achieve its objectives.

## Elements of Executive Compensation

Total direct compensation (“**Total Direct Compensation**”) represents the combined value of fixed compensation and performance-based variable incentive compensation, comprising: base salary, short-term incentive compensation in the form of an annual cash bonus, and long-term incentive compensation in the form of stock options.

The allocation of Total Direct Compensation value to these different compensation elements is not based on a formula, but rather is intended to reflect the Compensation Committee’s discretionary assessment of an executive officer’s past contribution and ability to contribute to future short and long-term business results.

### *Base Salary*

The base salary of each NEO is reviewed annually and is the fixed portion of each NEO’s Total Direct Compensation and is designed to provide income certainty and to attract and retain executives.

### *Short-term Incentives*

The annual cash bonus is a short-term incentive that is intended to reward each executive officer for their yearly individual contribution and performance of personal objectives in the context of overall annual corporate performance. The annual cash bonus is designed to motivate executives annually to achieve personal business objectives, to be accountable for their relative contribution to the Corporation’s performance, as well as to attract and retain executives. For fiscal 2010, the CEO, CFO, and the Vice President, Governmental Affairs were not awarded any short-term incentive compensation.

### *Long-term Incentives*

Long-term incentive compensation is provided through the granting of stock options. This incentive arrangement is designed to motivate executives to achieve longer-term sustainable business results, align their interests with those of the shareholders and to attract and retain executives. Participants benefit only if the market value of the Corporation's Common Shares at the time of a stock option exercise is greater than the exercise price of the stock options at the time of the relevant grant. Stock options vest 1/3 at the date of the grant, 1/3 after one year from the date of the grant and 1/3 after two years from the date of the grant.

## Determination of Compensation

Rather than strictly applying formulas and weightings to forward-looking performance objectives, which may lead to unintended consequences for compensation purposes, the Compensation Committee exercises its discretion and uses sound judgment in making compensation determinations. For this reason, the Compensation Committee does not measure performance using any pre-set formulas in determining compensation awards for NEOs.

The Compensation Committee's comprehensive assessment of the overall business performance of the Corporation, including corporate performance against objectives (both quantitative and qualitative), business circumstances and, where appropriate, relative performance against peers, provides the context for individual executive officer evaluations for all direct compensation awards and management fees.

The Board does not feel it is necessary to assess the effectiveness of individual board members. Each board member has considerable experience which is sufficient to meet the needs of the Corporation. On an annual basis, however, the Board assesses the contributions of each of the individual directors, and of the Board as a whole, in order to determine whether each is functioning effectively.

## **Stock Options**

### *Stock Option Granting Process*

Generally, stock option grants are determined annually. The CEO makes recommendations to the Compensation Committee regarding individual stock option awards for all recipients. The CEO does not engage in discussions with the Compensation Committee regarding his own stock option grants. The Compensation Committee and the Chairman of the Board deliberate and consider relevant market data and other information in order to determine the CEO's stock option grant recommendation to the Board.

The Compensation Committee reviews the appropriateness of the stock option grant recommendations from the CEO for all eligible employees and accepts or adjusts these recommendations. The Compensation Committee is responsible for approving all individual stock option grants, including grants that are awarded outside the annual compensation deliberation process for such things as promotions or new hires. The Compensation Committee is also responsible for recommending to the Board for its approval any stock option grants for executive officers.

The Compensation Committee approves or recommends compensation awards, including stock option grants, which are not contingent on the number, term or current value of other outstanding compensation previously awarded to the individual.

### **Stock Option Plan**

On May 21, 2004, the Corporation introduced a rolling stock option plan (the "Plan"), which was subsequently amended on January 9, 2009 by the Board and most recently obtained shareholder approval on February 11, 2009. The purpose of the Plan is to advance the interests of the Corporation and its subsidiaries by encouraging the directors, officers, employees and consultants (including the directors, officers and employees of such consultants) (each a "Participant") of the Corporation and its subsidiaries to acquire Common Shares, thereby (a) increasing the proprietary interests of such persons in the Corporation, (b) aligning the interests of such person with the interests of the Corporation's shareholders generally, (c) encouraging such persons to remain associated with the Corporation, and (d) furnishing such persons with an additional incentive in their efforts on behalf the Corporation.

According to the provisions of the Plan, the Board is authorized to provide for the granting, exercise and method of exercise of options, all on such terms as it shall determine including the delegation of the administration and operation of the Plan, in whole or in part, to a committee of the Board, subject to the terms of the Plan and applicable stock exchange rules. Under the Plan, the aggregate number of shares reserved for issuance may not exceed the greater of 5,000,000 Common Shares or 10% of the total number of issued and outstanding Common Shares at the time of any option grant. As of September 30, 2010, there were options outstanding to purchase an aggregate of 3,947,000 Common Shares under the Plan, representing approximately 7.3% of the Corporation's outstanding capital as of that date, taking into account options that have been exercised, forfeited or cancelled. As of the date of this Circular, an aggregate of 11,846,375 options (representing 21.9% of the issued and outstanding Common Shares) have been granted under the Plan (on a rolling basis) of which 3,766,991 options (representing 7.0% of the issued and outstanding Common Shares) have been exercised and 4,329,050 options expired or were cancelled without being exercised. Accordingly, as of the date of this Circular, 3,750,334 Common Shares (representing 6.9% of the issued and outstanding Common Shares) are currently reserved for issuance pursuant to options granted under the Plan and the Corporation may grant an additional 1,650,710 options under the Plan, calculated based on 10% of the number of Common Shares issued and outstanding as of the date of this Circular.

The number of Common Shares that may be acquired under an option granted to a Participant is determined by the Board, provided that the aggregate number of Common Shares reserved for issuance in any 12 month period to any one Participant shall not exceed 5% of the Corporation's then issued and outstanding Common Shares unless the Corporation has obtained prior shareholder approval. In addition, no more than 2% of the Corporation's then issued and outstanding Common Shares may be granted to any one consultant

or to any one employee in any 12 month period and no more than 1% of the Corporation's issued and outstanding Common Shares may be granted to all of the non-executive directors of the Corporation.

Within any 12 month period, the number of Common Shares issued to insiders of the Corporation under the Plan and any other security based compensation arrangement, may not exceed 10% of the Corporation's then issued and outstanding Common Shares and nor may the number of Common Shares reserved for issuance to insiders of the Corporation under the Plan at any time exceed 10% of the Corporation's then issued and outstanding Common Shares.

The exercise price of any options granted under the Plan will be fixed by the Board at the time of the grant, provided that the options shall not be less than the closing price of the Common Shares on the business day immediately prior to the date of the grant as quoted on the Toronto Stock Exchange (the "TSX").

The period during which an option may be exercised shall also be determined by the Board at the time the option is granted, provided that no option shall be exercisable for a period exceeding five years from the date it was granted and subject to any vesting limitations imposed by the Board in its sole unfettered discretion at the time of the grant. Generally, options expire within 90 days of a Participant ceasing to be a Participant, if the Participant is engaged to provide investor relations activities to the Corporation, 30 days after the optionee ceases to be employed to provide such investor relations activities or immediately if the Participant is terminated for cause. All options granted pursuant to the Plan are personal to the grantee and are not assignable or otherwise transferable except for a limited right of assignment to allow (a) the exercise of options by a Participant's legal representative in the event of death or incapacity, or (b) the transfer of an option to a corporation wholly owned by the Participant or certain trusts, of which the Participant is the sole beneficiary.

The Plan or any option there under may be amended at any time, subject to the approval of the Board and the shareholders of the Corporation, as well as any requisite regulatory approvals, in order to (i) increase the maximum number (or percentage) of Common Shares issuable under the Plan, (ii) increase the maximum number of Common Shares issuable under the Plan to insiders, (iii) make any amendment that would reduce the exercise price of any outstanding option (including a cancellation or reissue of an option constituting a reduction of the exercise price), (iv) extend the term of any option granted under the Plan beyond the original expiry date, (v) increase the maximum term of any option permitted under the Plan, (vi) expand the categories of individuals eligible to participate under the Plan, (vii) allow options to be transferred or assigned other than as provided under the Plan (and described above), or (viii) to amend the amendment provisions of the Plan. The Plan provides that, for greater certainty, the Board may at any time and for any reason, make the following amendments to the Plan or any option there under without shareholder approval (provided that a Participant's consent to such action is required unless the Board determines that the action would not materially and adversely affect the existing rights of such Participant): (i) amendments of a housekeeping or clerical nature, as well as any clarifying amendment to the provisions of the Plan, (ii) amendments to the eligibility criteria and limits for participation in the Plan, (iii) a change to the termination provisions of an option or of the Plan, provided that the change does not entail an extension beyond an option's original expiry date, (iv) additions and amendments to or deletions from the Plan in order to comply with legislation governing the Plan or the requirements of a regulatory body or stock exchange, and (v) amendments to the provisions relating to the administration of the Plan.

### **Other Compensation**

Executive officers receive other benefits that the Corporation believes are reasonable and consistent with its overall executive compensation program. These benefits, which are based on competitive market practices, support the attraction and retention of executive officers. Benefits include traditional health programs and limited executive perquisites.

## **How the Corporation Determines Compensation**

### **The Role of the Compensation Committee**

The Compensation Committee approves, or recommends for approval, all compensation to be awarded to the NEOs. The Compensation Committee directs management to gather information on its behalf, and provide initial analysis and commentary. The Compensation Committee reviews this material along with other information in its deliberations before considering or rendering decisions.

The Compensation Committee has full discretion to adopt or alter management recommendations or to consult its own external advisors.

The Compensation Committee believes it is important to follow appropriate governance practices in carrying out its responsibilities with respect to the development and administration of executive compensation and benefit programs. Governance practices followed by the Compensation Committee include holding in-camera sessions without management present and, when necessary, obtaining advice from external consultants.

### **The Role of Management**

Management has direct involvement in and knowledge of the business goals, strategies, experiences and performance of the Corporation. As a result, management plays an important role in the compensation decision-making process. The Compensation Committee engages in active discussions with the CEO concerning the determination of performance objectives, including individual goals and initiatives for NEOs, and whether, and to what extent, criteria for the previous year have been achieved for those individuals. The CEO may also provide a self-assessment of his own individual performance objectives and/or results achieved, if requested by the Compensation Committee.

The CEO makes recommendations to the Compensation Committee regarding the amount and type of compensation awards for other members of executive management. The CEO does not engage in discussions with the Compensation Committee regarding his own Total Direct Compensation. The Compensation Committee and the Chairman of the Board are provided with relevant market data and other information as requested, in order to support the Compensation Committee's deliberations regarding the CEO's Total Direct Compensation and subsequent recommendation to the Board.

### **Performance Assessment**

Rather than strictly applying formulas and weightings to forward-looking performance objectives, which may lead to unintended consequences for compensation purposes, the Compensation Committee exercises its discretion and uses sound judgment in making compensation determinations. For this reason, the Compensation Committee does not measure performance using any pre-set formulas in determining compensation awards for NEOs.

The Compensation Committee's comprehensive assessment of the overall business performance of the Corporation, including corporate performance against objectives (both quantitative and qualitative) and business circumstances provides the context for individual executive officer evaluations for all direct compensation awards.

#### *Corporate Performance*

The Corporation's Board approves annual corporate objectives, which include financial performance, strategic direction, plan implementation, financial controls and other facets of the Corporation's development, in line with the Corporation's key longer-term strategies for growth and value creation. These quantitative and qualitative objectives are utilized by the Compensation Committee as a reference when making compensation decisions.

At the end of each year, the Compensation Committee reviews the results achieved and discusses them with management. For the purposes of Total Direct Compensation deliberations, the Compensation Committee then determines an overall rating for actual corporate performance relative to an expected level of performance. This overall corporate performance rating provides general context for the Compensation Committee's review of individual performance by the NEOs.

#### *Individual Performance*

The Compensation Committee approves annual individual performance objectives, which include financial performance, strategic direction, plan implementation, financial controls and other facets of the Corporation's development, for the NEOs that are intended to align with the corporate objectives and reflect key performance areas for each executive relative to his or her specific role. As with the corporate objectives, individual executive officer's performance objectives may include a combination of quantitative and qualitative measures with no pre-determined weightings.

The Compensation Committee, in consultation with the CEO, reviews the achievements and overall contribution of each individual executive officer who reports to the CEO. The Board Chair and Compensation Committee have in-camera discussions to complete an independent assessment of the performance of the CEO. The Compensation Committee then determines an overall individual performance rating for each individual executive officer and considers this rating in determining Total Direct Compensation.

#### **Internal Equity and Retention Value**

Executive officer pay relative to other executives ("internal equity") is generally considered in establishing compensation levels. The difference between one executive officer's compensation and that of the other NEOs reflects, in part, the difference in their relative responsibilities. The CEO's responsibility for the management and oversight of the enterprise is greater than each of the executive officers' respective business areas. As a result, the compensation level for the CEO is higher than for other NEOs.

The Compensation Committee also considers the retentive potential of its compensation decisions. Retention of the NEOs is critical to business continuity and succession planning.

#### **Previously Awarded Compensation**

The Compensation Committee approves or recommends compensation awards which are not contingent on the number, term or current value of other outstanding compensation previously awarded to the individual. The Compensation Committee believes that reducing or limiting current stock option grants or other forms of compensation because of prior gains realized by an executive officer would unfairly penalize the officer and reduce the motivation for continued high achievement. Similarly, the Compensation Committee does not purposely increase long-term incentive award values in a given year to offset less-than-expected returns from previous grants.

During the annual Total Direct Compensation deliberations, the Compensation Committee is provided with summaries of the history of each executive officer's previously awarded Total Direct Compensation. These summaries help the Compensation Committee to track changes in an executive officer's Total Direct Compensation from year to year and to remain aware of the historical compensation for each individual.

#### **Compensation Decisions for 2010**

The Compensation Committee considered and approved amendments in the annual base salary for CFO and the Vice President, Governmental Affairs effective January 1, 2010. There was no change in the annual base salary for the CEO.

The annual base salary for the CFO was set at \$177,000, an increase of 6% from the previous annual base salary of \$167,000 and the annual base salary for the Vice President, Governmental Affairs was set at \$148,400 an increase of 6% from the previous annual base salary of \$140,000.

There was no cash bonus for the CEO, CFO and Vice President, Governmental Affairs.

The Compensation Committee considered and approved compensation of \$187.50 per hour for the CEO appointed on June 25, 2010.

The Compensation Committee considered and approved the grant of options to purchase 550,000 Common Shares, at a price of \$0.29 per share, on August 17, 2010 to the CEO, CFO and Vice President, Governmental Affairs.

#### **Decisions Related To Executive Compensation That Were Taken After Year End**

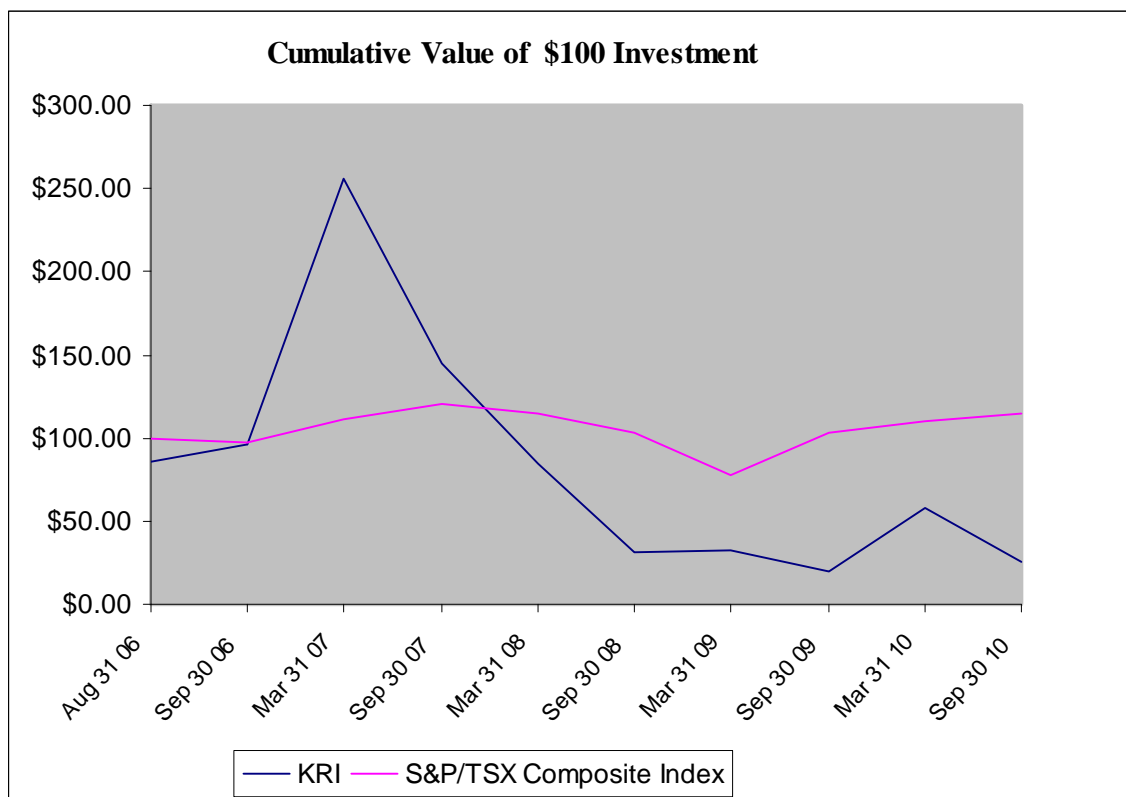

Following fiscal year-end, the Compensation Committee considered and approved an increase in the annual base salary for the Vice President, Governmental Affairs effective January 1, 2011. There was no change in the compensation for the CEO.

The base salary for the Vice President, Governmental Affairs was set at \$162,000 an increase of 9.2% from the previous base salary of \$148,400.

The CFO position changed from a full-time basis to a part-time basis effective January 1, 2011. The Compensation Committee considered and approved the compensation of \$100 per hour for the CFO effective January 1, 2011.

#### **Performance Graph**

The following graph compares the total cumulative shareholder return for \$100 invested in Common Shares on August 2, 2006 (the date the Common Shares were listed on the Toronto Stock Exchange) to September 30, 2010 with the cumulative total return of the S&P/TSX Composite Index over the same period.

Note:

- (1) Assumes \$100 invested in the Corporation's Common Shares on August, 2, 2006 and in the S&P/TSX Composite Index.

The Compensation Committee considers a number of factors and performance elements when determining compensation. Although the Corporation's total shareholder return is one performance measure that is reviewed, it is not the only consideration in executive compensation deliberations. As a result, a direct correlation between total shareholder return over a given period and executive compensation levels is not anticipated.

### Summary Compensation Table

#### *Estimated Payouts*

Assuming the occurrence of a "change of control" on September 30, 2010, Messrs. Quick, Caldwell and Ochirbal would have been entitled to receive aggregate cash compensation of approximately \$538,000, \$354,000 and \$222,600. Assuming the accelerated vesting and exercise of all options under the Plan as of September 30, 2010, Messrs. Edey, Quick, Caldwell and Ochirbal would also receive an additional \$40,500, \$41,400, \$40,500 and \$40,500 in value, respectively, calculated as the number of options held on such date multiplied by the difference between the closing price of the Common Shares on September 30, 2010 on the TSX and the exercise price of such options. In cases where the closing price on September 30, 2010 exceeded the exercise price of the option, a "nil" value was attributed to the applicable options.

In the event that certain NEO's employment with the Corporation was terminated without cause in circumstances other than a change of control, estimated payouts for Messrs. Caldwell and Ochirbal, assuming the occurrence of the termination event on September 30, 2010, would have been approximately \$88,500 and \$74,200 respectively. In addition, assuming the accelerated vesting and exercise of all options under the Plan held by the foregoing NEOs as of September 30, 2010, Messrs Caldwell and Ochirbal would also receive an additional \$40,500 and \$40,500 in value, respectively, calculated as the number of options held on such date multiplied by the difference between the closing price of the Common Shares on September 30, 2010 on the TSX and the exercise price of such options. In cases where the closing price on September 30, 2010 exceeded the exercise price of the option, a "nil" value was attributed to the applicable options.

### **Material Factors Necessary to Understand Director Compensation**

The Board reviews and approves changes to the Corporation's director compensation arrangements from time to time to ensure they remain competitive in light of the time commitments required from directors and align directors' interests with those of Khan's shareholders.

Initially, the Corporation has adopted a compensation scheme for non-executive directors that pay each non-executive director an attendance fee of \$500 per meeting attended in person and \$250 per meeting attended by telephone. On July 15, 2010, the attendance fee for a meeting attended by telephone was increased to \$500.

On January 19, 2010, the Board approved the payment of an annual retainer fee of \$15,000 to each member of the Board of Directors which was paid on January 29, 2010.

On December 11, 2009, the Board of Directors approved a one-time payment of \$15,000 to each member of the Special Committee of the Board of Directors as compensation for their time and effort in respect of the ARMZ Offer (as discussed further below under the section of this Circular entitled "Shareholder Rights Plan"). Such payments were made on January 29, 2010.

Since Mr. Edey was appointed President and CEO, he does not receive any additional compensation for his service as a director. His compensation as a director was for meeting fees, special committee fees and retainer fee for the period of October 1, 2009 to June 25, 2010. Mr. Edey was paid a fee of \$1,500 per day for his additional work on behalf of the Special Committee.

Directors are also eligible to participate in the Plan and are awarded stock options under the Plan from time to time as compensation for their services as directors. For further details concerning the terms of the Plan, please see the section of this Circular above entitled "Stock Option Plan".

Directors are also reimbursed for travel and other expenses incurred in attending meetings and the performance of their duties.

During the fiscal year ended September 30, 2010, the directors (excluding NEOs who are directors and are not entitled to any additional compensation for their service as directors) received the compensation set out in this Circular. The directors are not entitled to any compensation under any annual or long-term non-equity incentive plans. The Corporation has not granted, and nor do the directors hold, any share-based awards.

#### **DIRECTORS' AND OFFICERS' INSURANCE AND INDEMNIFICATION**

The Corporation has obtained directors' and officers' liability insurance with a cumulative policy limit of \$10,000,000 subject to a deductible of \$100,000. The annual premium cost of this insurance coverage for fiscal 2010 is \$76,032, all of which is paid by the Corporation.

If Khan becomes liable under the terms of its by-laws, the insurance coverage will extend to its liability; however, each claim will be subject to a deductible.

The Board of Directors proposes that Ernst & Young LLP (the "Auditors") be re-appointed as the auditors of the Corporation to hold office until the close of the next annual meeting of shareholders and that the Board of Directors be authorized to fix the remuneration of the Auditors. The Auditors were first appointed as auditors of Khan on January 15, 2004.

For the year ended September 30, 2010, the Auditors were paid total fees of \$126,300, which included \$112,000 for audit services and \$14,300 for tax fees. The Board's fundamental objectives are to enhance and preserve long-term shareholder value; to ensure that the Corporation meets its obligations on an ongoing basis and that the Corporation operates in a reliable and safe manner. In performing its functions, the Board's mandate dictates that it should consider the legitimate interests that its stakeholders, such as employees, customers and communities, may have in the Corporation. In supervising the conduct of the business, the Board, through the Chief Executive Officer, sets the standards of conduct for the enterprise.

The Board has developed a role description for the Chairman of the Board. Continuing education could include periodic site visits of various properties and operations centres. Further, as part of the continuing education process, the Chief Executive Officer reports on industry developments to the Board of Directors at each meeting. Directors are also regularly provided with copies of the Corporation's ongoing continuous disclosure documents, and receive management presentations and information and presentations from the Corporation's external advisors and experts, as appropriate, from time to time.

**5. Ethical Business Conduct**

(a) Disclose whether or not the board has adopted a written code for the directors, officers and employees. If the board has adopted a written code: (i) disclose how a person or company may obtain a copy of the code; (ii) describe how the board monitors compliance with its code, or if the board does not monitor compliance, explain whether and how the board satisfies itself regarding compliance with its code; and (iii) provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the code.

The Board of Directors has adopted a Code of Ethics that is applicable to all directors, officers and employees of the Corporation (the "Code") a copy of which may be obtained, upon request, from Paul D. Caldwell, Chief Financial Officer and Corporate Secretary, by e-mail, at [pcaldwell@khanresources.com](mailto:pcaldwell@khanresources.com) or by written request sent to Paul D. Caldwell, Chief Financial Officer and Corporate Secretary at 141 Adelaide Street West, Suite 1007, Toronto, Ontario, Canada, M5H 3L5.

The Board of Directors expects directors, officers and employees of the Corporation to act ethically at all times and to acknowledge their adherence to the policies comprising the Code. The Code prohibits actions that could be considered a conflict of interest and contains provisions in respect of fair dealing, confidentiality and prohibitions and illegal or unethical behaviour and is discussed at least annually by the Corporate Governance and Nominating

Committee.

Each director must disclose all actual or potential conflicts of interest and refrain from voting on matters in which such director has a conflict of interest. In addition, a director must excuse himself or herself from any discussion or decision on any matter in which the director is precluded from voting as a result of a conflict of interest. The matter will also be discussed by non-conflicted directors of the Corporate Governance Committee.

(c) Describe any other steps the board takes to encourage and promote a culture of ethical business conduct.

The Board of Directors has a written disclosure policy aimed at informative, timely and broadly disseminated disclosure of material information to the market, in accordance with applicable securities legislation.

The Board has also established a written insider trading policy which is intended as a guideline to eliminate any transaction by an insider which would not be in full compliance with applicable securities legislation or which, by implication, might suggest trading by insiders was carried out when they were in possession of privileged or material information not yet disclosed to the public.

**6. Nomination of Directors**

(a) Describe the process by which the board identifies new candidates for board nomination.

Khan maintains, through its Corporate Governance and Nominating Committee, a list of potential directors who have appropriate levels of senior business experience. Names on that list come from several sources. The directors of Khan are encouraged to submit names. Candidates' names are also obtained through analysis of other corporate boards and through reviews of senior corporate executives in other types of enterprises. Business and financial publications are also sources of names. Shareholders are also welcome to submit names for consideration. The list is reviewed by the Corporate Governance and Nominating Committee on a regular basis.

The Corporate Governance and Nominating Committee reviews the composition of the Board from time to time so that when a vacancy occurs, the most appropriate candidate can be readily identified. When a vacancy occurs, the Corporate Governance and Nominating Committee reviews the list and selects the names of the most suitable candidates. The Corporate Governance and Nominating Committee may, if it is felt necessary, utilize the services of outside consultants in searching for candidates. The names of candidates are then submitted to the entire Board to obtain the comments and suggestions from its members.

(b) Disclose whether or not the board has a nominating committee composed entirely of independent directors. If the board does not have a nominating committee composed entirely of independent directors, describe what steps the board takes to encourage an objective nomination process.

(c) If the board has a nominating committee, describe the responsibilities, powers and operation of the nominating committee.

**7. Compensation**

(a) Describe the process by which the board determines the compensation for the issuer's directors and officers.

Once the Board agrees on the best candidate, an approach is made to that person in a manner deemed most appropriate by the Corporate Governance and Nominating Committee. The approach would be followed by personal interviews with the prospective director involving the Chairman of the Board, the Chair of the Corporate Governance and Nominating Committee, the Chief Executive Officer and other Board members as circumstances warrant.

If there is agreement to serve as a director, a Board orientation process is then carried out by the Chairman of the Board. After appointment or election, as the case may be, orientation with management is carried out.

The Corporate Governance and Nominating Committee is composed of three independent directors and one non-independent director. The non-independent director excuses himself from any discussion or decision regarding the nomination process. Because only independent directors participate in the nomination process, the committee is able to objectively pursue its mandate of identifying new directors. In addition, Khan's Board is required to agree on any candidate put forward by the Corporate Governance and Nominating Committee before an approach is made to that person.

In addition to the responsibilities described above, the Corporate Governance and Nominating Committee is responsible for establishing processes for identifying, recruiting, appointing, re-appointing and providing ongoing development for directors.

The Compensation Committee is charged with developing, for recommendation to the Board, a compensation philosophy and guidelines for the executive officers. It recommends to the Board the level of compensation for each executive officer (including level of variable pay compensation for the executive officers based on annual performance information). The Compensation Committee also considers and, if deemed appropriate, makes recommendations to the Board about any option or benefit plans to be established for executive officers.

If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.

**8. Other Board Committees**

If the board has standing committees other than the audit, compensation and nominating committees, identify the committees and describe their function.

**9. Assessments**

Disclose whether or not the board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe the process used for the assessments. If assessments are not regularly conducted, describe how the board satisfies itself that the board, its committees, and its individual directors are performing effectively.

The Corporate Governance and Nominating Committee conducts annually, in conjunction with the Chairman of the Board, an evaluation of the effectiveness of the Board of Directors and its committees. In such evaluation, the Corporate Governance and Nominating Committee assesses the effectiveness of the Board of Directors and its committees, the adequacy of information provided to directors, communication processes between the Board of Directors and management, agenda planning for Board of Directors and committee meetings and strategic planning.
