The unaudited interim condensed consolidated financial statements do not include all disclosures normally provided in annual consolidated financial statements and should be read in conjunction with the Company's 2013 annual consolidated financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). The Board of Directors authorized these unaudited interim condensed consolidated financial statements for issue on May 22, 2014.

The unaudited interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the future operations will allow for the realization of assets and discharge of liabilities in the normal course of business. The Company expects to receive a decision on the International Arbitration described in Note 1 above in the second half of 2014. As at the date of approval of these consolidated financial statements, it is not possible to reliably estimate the amount, if any, of an award of damages or costs in any decision by the arbitrators. Management believes in the merits of its case and expects a significant award to be rendered to the Company. In the event that no award is rendered to the Company and costs are awarded to the counterparty, this material uncertainty may cast significant doubt as to the Company's ability to continue as a going concern given its financial position as at March 31, 2014.

#### b. Use of estimates and judgments

The preparation of condensed interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's 2013 annual consolidated financial statements.

# 3 Significant accounting policies

The accounting policies adopted are consistent with those of the previous financial year. There are no new IFRS standards, amendments and interpretations that are effective for the first time for this interim period that would be expected to have a material impact on the Company.

# 4 Cash, cash equivalents and restricted cash

As at March 31, 2014 and 2013, the Company did not have any cash equivalents.

Restricted cash consists of a guaranteed investment certificate pledged as security for a corporate credit card facility. This guaranteed investment certificate has a maturity date of less than one year.

#### **5** Investments

Investments consist of available-for-sale financial assets of 14,823,330 (September 30, 2013 – 15,523,330) common shares of Macusani Yellowcake Inc. ("Macusani") with a fair value on March 31, 2014 of \$1,557 (September 30, 2013 - \$1,164). During February and March 2014, the Company sold 700,000 shares of Macusani for gross proceeds of \$92.

The Company measures financial assets at fair value at each reporting period using quoted market prices. Decreases in the fair value of the Macusani shares are recognized in income (loss) before tax as a consequence of this financial asset being assessed as impaired at September 30, 2012 with subsequent increases being recorded in other comprehensive income. See also note 8

#### 6 Property, plant and equipment

The Company's tangible assets including those in Mongolia had been fully impaired in 2012 due to the failure of the Government of Mongolia to reissue the Company's mining and exploration licenses for the Dornod project as described in Note 1. The Mongolian subsidiaries were closed on September 30, 2013 and all Mongolian tangible assets were retired. On October 17, 2013 and December 4, 2013, the Company sold the remaining assets at or associated with the Dornod site that had been closed since June 2012. These sales were completed for gross proceeds of \$47, which resulted in an impairment reversal that has been recognized under discontinued operations on the face of the consolidated statement of loss. In addition, the Company sold some of the registered office's equipment for gross proceeds of \$8, resulting in an impairment reversal that has been recognized in the loss before tax for the six months ended March 31, 2014.

Remaining tangible assets are set out in the following table.

On March 28, 2014, a total of 2,150,000 options with a contractual life of three years were granted to directors, officers, and employees at an exercise price of \$ 0.335 per share being an amount equal to the posted share price prevailing at the close of market on March 27, 2014. All of the options shall vest and be exercisable immediately. There is no cash settlement of the options. The fair value of the options granted is estimated at the date of grant using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. The fair value of the options granted during the six months ended March 31, 2013 was estimated on the date of grant using the following assumptions:

Dividend yield (%)	-
Expected volatility (%)	120.54
Risk free interest rate(%)	1.23
Forfeiture rate (%)	-
Expected life (years)	3.00
Weighted average share price (\$)	0.335

# 14 Earnings per share

Basic earnings per share (EPS) is calculated by dividing the net income (loss) for the period attributable to equity owners of Khan Resources Inc. by the weighted average number of common shares outstanding during the period.

Diluted EPS is calculated by adjusting the weighted average number of common shares outstanding for dilutive instruments. The Company's only dilutive instruments at March 31, 2014 were its share options. Any potential common shares whose effect is antidilutive have not been reflected in the calculation of Diluted EPS. The determination of the weighted average number of common shares outstanding for the calculation of Diluted EPS does not include the effect of outstanding share options since to do so would reduce the loss per share and would therefore be anti-dilutive.

# **15 Contingent liability**

At March 31, 2014 a contingent liability amounting to \$3,581 (September 30, 2013 - \$3,337) existed in respect of a completion fee arranged with legal counsel handling the international arbitration. This fee is based on the actual cost of the legal work completed and is conditional upon the recovery (in whole or significant part) by the Company of a settlement or award of the international arbitration case. As a present obligation does not exist due to the conditional nature of the fee, the amount is uncertain and cannot be measured reliably. Therefore management has recognized no provision in these consolidated financial statements as at the date of their approval.

# **16 Reclassification of Prior Year Amounts**

Certain prior year amounts have been reclassified to conform to the current year presentation.
